NEW
PRODUCT

Product
Features

1. High Power
2. High Efficiency
3. Low Loss
4. Low Temperature
5. Low Noise

Yangjie Technology has recently launched anti-reverse rectifier diodes for high-power power supplies. The product adopts GPP process chips, with mature and stable chip technology, and its Tj capability meets the application requirements of 150℃. The product is made of environmentally friendly materials and complies with RoHS standards. It can be applied to DC charging piles, energy storage inverters, industrial power supply
